

PUMP CATALOGUE

ABOUT US

Our company is the exclusive representative of the following pump equipment manufacturers:

Domestic pumps

Submersible pumps

Screw pumps

Wastewater pumps

Submersible pumps

Dosing pumps

In addition to the manufacturers listed above, we also represent SAER, CAPRARI, NETZSCH, SEEPEX, ALLWEILER, WANGEN, ANGLADA, BELLIN and others, enabling us to offer our customers comprehensive solutions in pumping technology.

We provide reliable solutions for pumping various media across numerous industrial sectors and agriculture, as well as a range of domestic pumps for the home and garden, including authorised service and expert advice.

HORIZONTAL CENTRIFUGAL PUMPS

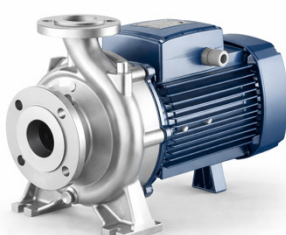

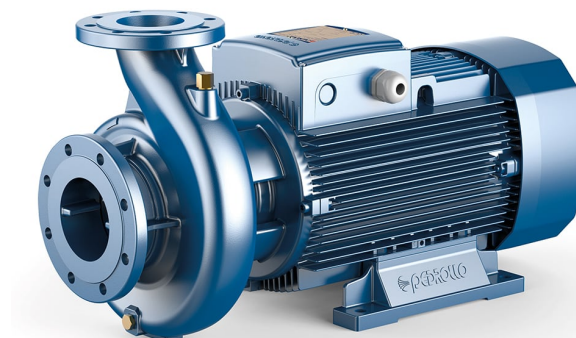

STANDARDISED

Single-stage centrifugal pumps with a radial impeller and EN 733 connection dimensions for pumping clean water free of abrasive particles in industrial applications.

Close-coupled or baseplate-mounted versions.

Applications: industrial processes, cooling, air conditioning, pressure systems, irrigation, fire protection systems, etc.

Materials: cast iron, stainless steel

SELF-PRIMING

Close-coupled centrifugal pumps with excellent self-priming capability, suitable for pumping clean water.

Applications: water supply, irrigation, etc. Suction lift up to 9 m.

Materials: cast iron, stainless steel

HORIZONTAL CENTRIFUGAL PUMPS

OTHER

Close-coupled centrifugal pumps for a wide range of industrial and agricultural applications

Applications: water supply, irrigation, etc.

Materials: cast iron, stainless steel

VERTICAL CENTRIFUGAL PUMPS

Close-coupled vertical centrifugal pumps for industrial applications

Applications: process pumping, cooling, air conditioning, automatic pressure booster sets, etc.

Materials: cast iron, stainless steel

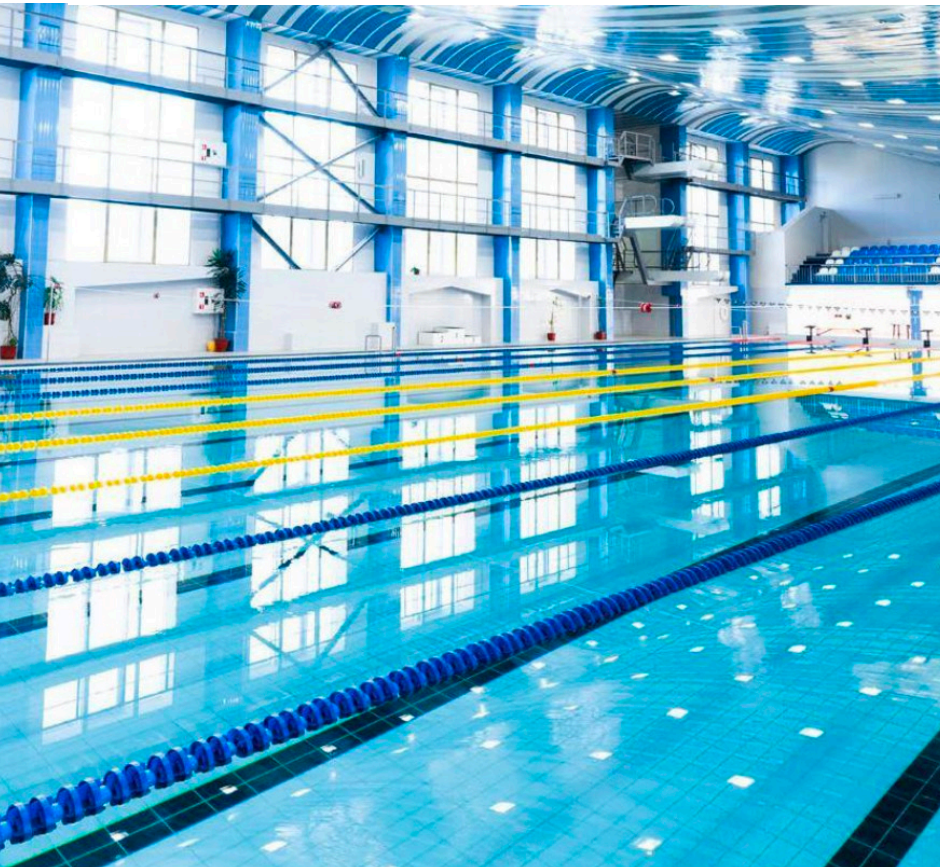

HEAVY-DUTY PUMPS

Robust industrial pumps for a wide range of industrial and agricultural applications

Applications: process pumping, cooling, irrigation, etc.

Materials: cast iron, stainless steel, bronze, super duplex, etc.

SUBMERSIBLE CENTRIFUGAL PUMPS

BOREHOLE PUMPS 3", 4", 6", 8", 10"

Multistage submersible borehole pumps

Applications: pumping water from deep wells, irrigation, etc.

Materials: cast iron, stainless steel, NORLYL

Goodwin®

FAGGIOLATI PUMPS S.p.A.

WASTEWATER AND DRAINAGE

Submersible wastewater and drainage pumps for a wide range of industrial and agricultural applications

Applications: pumping wastewater, sludge, etc.

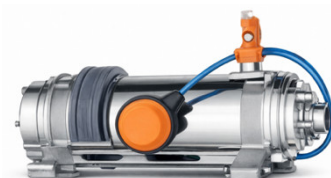

Materials: cast iron, stainless steel, bronze

OTHER SUBMERSIBLE PUMPS

Compact close-coupled submersible pumps

Applications: pumping water from wells and storage tanks, irri etc.

Materials: stainless steel, NORYL

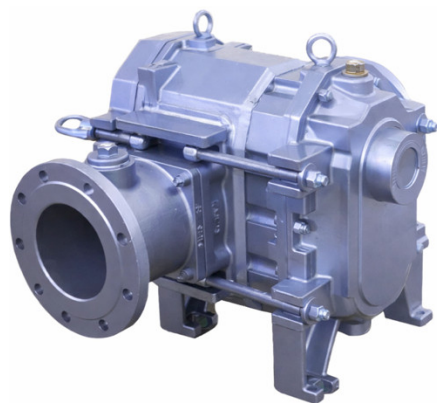

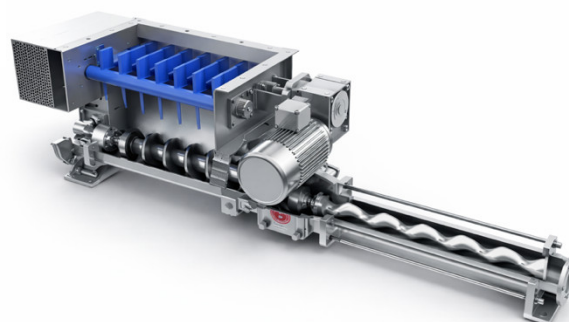

DISPLACEMENT PUMPS

PROGRESSIVE CAVITY PUMPS

Progressive cavity pumps in close-coupled and baseplate-mounted versions

Applications: pumping viscous liquids, sludge and chemicals.

Materials: cast iron, stainless steel

ROTARY LOBE PUMPS

Compact rotary lobe pumps

Applications: pumping viscous liquids, sludge and chemicals.

OTHER POSITIVE DISPLACEMENT PUMPS & MACERATORS

Compact close-coupled macerators and grinders

Applications: macerating solid and fibrous particles in the pumped medium before they enter the pump.

DOSING PUMPS

Dosing

Compact solenoid-driven dosing pumps

Applications: pumping and dosing chemicals. **Materials:** stainless steel, plastic

INJECTA
the perfect dosing

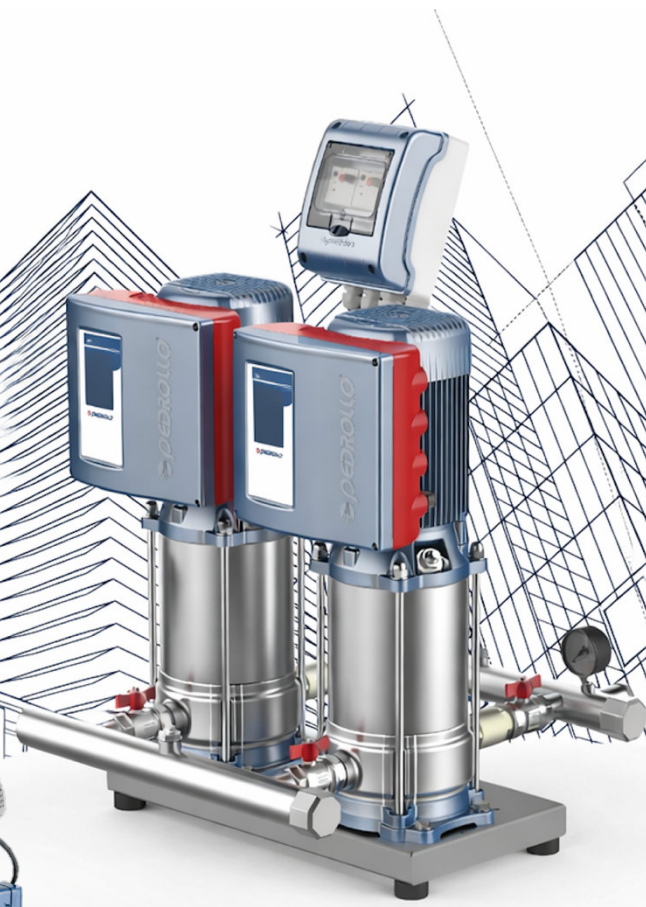

seko

PRESSURE BOOSTER SETS

Automatic pressure booster set

Applications: pumping wastewater, pressure boosting in systems, etc.
The units are assembled from several pumps to meet customer requirements.

Materials: stainless steel, cast iron

PEDROLLO
the spring of life

SUBMERSIBLE AND LOW-SPEED MIXERS

Submersible mixers for industrial and agricultural applications

Applications: mixing and homogenising various media in tanks.

Materials: stainless steel, cast iron, fibreglass

ACCESSORIES

EASYPRESS & STEADYPRES

Compact electronic unit that replaces a conventional pressure-switch and pressure-tank assembly

Applications: automatic pump start-up and dry-running protection.

SMART ELECTRONIC CONTROL UNITS E1, E2, PRO-DG

Applications: remote pump control and monitoring via PC or mobile phone
